

The Letter

V1

It's got my name on it
And it's just waiting there for me
I feel the cold run through my veins
And it's got her shame on it
She couldn't say it to my face
But I won't waste time placing blame

Br

I know that I'll move on
Tell myself I'll find me something better
I let go and just forget her

Chorus

She was no good for me
Deep down I know that's the way it has to be so
How come I still can't open this letter?
I can't forget her.....

V2

There must be a name for it
Whatever this is you've done to me
I'm all twisted up inside
Well who's gonna pay for it?
If it's not you I guess it's me
You left with your life
And took mine

Br

Ch

M8

I really wish I could
Really wish I could
Oh yeah

Br

Ch

It's got my name on it
And it's just waiting there for me ...
